Artistar Jewels - Milan Fashion Week

Artistar Jewels officially opens the doors to the international contemporary jewellery during the Milan Fashion Week. Artistar Jewels is the event founded in 2012 by the designer Enzo Carbone and is now a benchmark in the contemporary jewelry scenario. An international showcase for well-known artists and springboard for emerging creative talents. The participants present their works, unique pieces or small series, selected for the high artistic value, for the technical experimentation and the stylistic research. Evocative body ornaments, very different for the materials and the techniques but linked by the fil rouge of the narration of a story, always present in each creation. Artistar Jewels is a project born with the aim of spreading the culture of contemporary jewelry and designed to anticipate the market trends, one of the first Italian realities which has exploited all the potentiality of the web to implement the commercialization of contemporary jewelry.
